Forecast for Monday 17 Aug 2020

Weather: After a cloudy, misty and murky start, it will soon brighten up during the morning, with some sunny spells developing. However, the cloud will soon bubble up by midday to give a mixture of bright or sunny spells and scattered heavy showers and thunderstorms. Any thunderstorms will be slow-moving, with torrential downpours, large hail, frequent lightning and gusty winds additional hazards. A swathe of more persitent rain may reach the area from the west during the evening.

Chance of cloud free mountain/hill tops above 600m: 20% chance during the morning, with cloud bases down to 300-400m. Lifting to above the summits by mid-morning, with 80% chance during the day. Lowering to 300-400m in heavy showers and thunderstorms at times, during the afternoon and evening.

Visibility: 100-200m in fog overnight into Monday morning, becoming generally good or very good, with nearby hills and peaks visible. Becoming poor in heavy showers and thunderstorms.
